COMPANY OVERVIEW

Safety First Solutions LLC provides professional safety staffing, consulting, and jobsite support for construction, industrial, manufacturing, and commercial operations nationwide. Led by Johnny Jones, SMP, CHST, STSC, the company delivers dependable, field-ready safety leadership that helps protect workers, maintain regulatory compliance, and keep projects moving efficiently. Our approach is grounded in accountability, clear communication, practical risk management, and the belief that every worker should return home safely.

CORE COMPETENCIES

Safety Staffing

Short-term, long-term, and emergency safety coverage for construction, industrial, manufacturing, and commercial projects. Services include daily safety leadership, regulatory documentation, contractor coordination, and workforce support.

Safety Consulting

Site evaluations, hazard identification, corrective action planning, and safety program development. We support OSHA compliance, applicable regulatory requirements, client standards, and project-specific safety expectations.

Jobsite Safety Audits

Comprehensive inspections with clear reporting, prioritized corrective recommendations, and follow-up verification. Daily, weekly, and monthly audit programs are available to meet project requirements.

Incident and Accident Investigation

Thorough incident review, root-cause analysis, documentation, corrective action planning, and practical prevention strategies designed to reduce recurrence.

Safety Training

Toolbox talks, new-hire orientations, PPE training, and job-specific safety instruction. Training is clear, practical, and tailored to real-world jobsite conditions.

Daily Safety Documentation

Preparation and management of safety logs, job hazard analyses (JHAs), permits, inspection records, and workforce compliance tracking. Documentation is accurate, organized, and aligned with project and client requirements.

Emergency Response Support

Rapid deployment of qualified safety support during critical project phases, shutdowns, incident recovery, or unexpected staffing gaps.

KEY DIFFERENTIATORS

- Certified safety leadership supported by SMP, CHST, and STSC credentials.
- Hands-on field experience across construction, industrial, manufacturing, and commercial environments.
- Strong communication and workforce-engagement practices that support a positive safety culture.
- Dependable onsite leadership focused on reducing risk and improving compliance.
- Flexible staffing and consulting solutions tailored to project size, schedule, location, and risk profile.
- Clear, organized documentation that supports audits, inspections, and client reporting.
- A consistent commitment to professionalism, integrity, responsiveness, and quality service.

RELEVANT EXPERIENCE

Experience includes safety support for framing, roofing, commercial construction, industrial facilities, manufacturing environments, and multi-trade projects. Capabilities include oversight of contractors, subcontractors, and multiple crews; daily leadership on active jobsites; compliance support; and rapid response for organizations requiring immediate or short-notice safety coverage.

SERVICE AREA AND AVAILABILITY

Headquartered in Charleston, South Carolina, Safety First Solutions LLC serves clients nationwide and is available for assignments in all 50 U.S. states. Travel, mobilization, project duration, and scheduling are coordinated according to client needs and project requirements.
